Background

- Monitors health and risk behaviors in the region served by the MetroWest Health Foundation (MHF).
- The MWAHS is largely based on the Youth Risk Behavior Surveillance System (YRBSS) of the Centers for Disease Control and Prevention (CDC).
- Administered every two years since 2006; WHS has participated all seven times. This data is based on survey administration in Fall 2018.
- In 2018, 58 middle and high schools from 25 school districts in the region took the survey. A total of 24,746 high school students were surveyed.
- At WHS, 799 out of 847 participated (94.3% participation rate).
HELPING MAKE THE SURVEY POSSIBLE
HOW THE SURVEY HELPS

- The Survey provides WaylandCares, Wayland Public School and the Community with up to date trend data, on topics of great value.
- The Survey provides us with tangible measurement, allowing us to monitor the impact of education efforts, policy change and other factors that influence the action of the youth of Wayland.
- Provides Data & Information to help secure funding through grants and foundations for community health and wellness.

SEL VISION STATEMENT

With an explicit focus on social emotional learning, we envision a school district and community that supports students in developing a healthy sense of self and social awareness, embracing diversity with empathy and respect for others, making responsible decisions, and effectively engaging with the world as we strive for both justice and joy.
In our accepting and inclusive community, we want our students to:

- Recognize and regulate their own emotions
- Make thoughtful and healthy decisions
- Appreciate their importance, feeling connected and safe in a responsive environment
- Become clear, confident and effective communicators
- Demonstrate self-compassion in the face of doubt, negativity and challenge
- Self-advocate and understand how to access help when needed
- Show resilience and persistence in the face of adversity, transition and change
- Embrace the culture and individuality of others
- Respect the perspective of others
- Create, sustain and support healthy relationships with both peers and adults
- Develop effective skills for parting and grieving and supporting others in this process
- Solve conflicts and problems in a creative and cooperative manner
- Demonstrate genuine concern about the welfare of others
- Have hope and confidence in their future
